

“(1) TEMPORARY EXEMPTION.—The second sentence of section 127 of title 23, United States Code, relating to axle weight limitations for vehicles using the Dwight D. Eisenhower System of Interstate and Defense Highways, shall not apply, for the period beginning on October 6, 1992, and ending on October 1, 2009, to—

“(A) any over-the-road bus (as defined in section 301 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12181)); or

“(B) any vehicle that is regularly and exclusively used as an intrastate public agency transit passenger bus.

“(2) STATE ACTION.—

“(A) WEIGHT LIMITATIONS.—For the period beginning on the date of enactment of this subparagraph [Nov. 30, 2005] and ending on September 30, 2009, a covered State, including any political subdivision of such State, may not enforce a single axle weight limitation of less than 24,000 pounds, including enforcement tolerances, on any vehicle referred to in paragraph (1) in any case in which the vehicle is using the Interstate System.

“(B) COVERED STATE DEFINED.—In this paragraph, the term ‘covered State’ means a State that has enforced, in the period beginning on October 6, 1992, and ending on the date of enactment of this subparagraph [Nov. 30, 2005], a single axle weight limitation of 20,000 pounds or greater but less than 24,000 pounds, including enforcement tolerances, on any vehicle referred to in paragraph (1) in any case in which the vehicle is using the Interstate System.”

TEMPORARY EXEMPTION FOR FIREFIGHTING VEHICLES

Section 1023(e) of Pub. L. 102-240 provided that:

“(1) TEMPORARY EXEMPTION.—The second sentence of section 127 of title 23, United States Code, relating to axle weight limitations and the bridge formula for vehicles using the National System of Interstate and Defense Highways, shall not apply, in the 2-year period beginning on the date of the enactment of this Act [Dec. 18, 1991], to any existing vehicle which is used for the purpose of protecting persons and property from fires and other disasters that threaten public safety and which is in actual operation before such date of enactment and to any new vehicle to be used for such purpose while such vehicle is being delivered to a firefighting agency. The Secretary may extend such 2-year period for an additional year.

“(2) STUDY.—The Secretary shall conduct a study—

“(A) of State laws regulating the use on the National System of Interstate and Defense Highways [now Dwight D. Eisenhower System of Interstate and Defense Highways] of vehicles which are used for the purpose of protecting persons and property from fires and other disasters that threaten public safety and which are being delivered to or operated by a firefighting agency; and

“(B) of the issuance of permits by States which exempt such vehicles from the requirements of the second sentence of section 127 of title 23, United States Code.

“(3) PURPOSES.—The purposes of the study under this subsection are to determine whether or not such State laws and such section 127 need to be modified with regard to such vehicles and whether or not a permanent exemption should be made for such vehicles from the requirements of such laws and section 127 or whether or not the bridge formula set forth in such section should be modified as it applies to such vehicles.

“(4) REPORT.—Not later than 18 months after the date of the enactment of this Act [Dec. 18, 1991], the Secretary shall submit to the Congress a report on the results of the study conducted under paragraph (2), together with recommendations.”

STUDY PERTAINING TO TRANSPORTERS OF WATER WELL DRILLING RIGS

Section 1023(g) of Pub. L. 102-240 directed Secretary to conduct a study of State and Federal regulations

pertaining to transporters of water well drilling rigs on public highways for the purpose of identifying requirements which place a burden on such transporters without enhancing safety or preservation of public highways, and, not later than 2 years after Dec. 18, 1991, report to Congress on the results of the study, together with any legislative and administrative recommendations.

MOTOR VEHICLE STUDY BY TRANSPORTATION RESEARCH BOARD; REPORT

Section 158 of Pub. L. 100-17 directed Secretary, within 6 months after Apr. 2, 1987, to enter into appropriate arrangements with the Transportation Research Board of the National Academy of Sciences to conduct a study of the following motor vehicle issues, including an analysis of the impacts of the various positions that have been put forth with respect to each issue and best estimates of effects on pavement, bridges, highway revenue and cost responsibility, and highway safety, and changes in transportation costs and other measures of productivity for various segments of the trucking industry resulting from adoption of each of the positions: (1) elimination of existing, grandfather provisions of 23 U.S.C. 127 which allow higher axle loads and gross vehicle weights than the 20,000-pound single axle load limit, 34,000-pound tandem axle load limit, and 80,000-pound gross vehicle weight limit maximums authorized by Pub. L. 93-643, (2) analysis of alternative methods of determining gross vehicle weight limit and axle loadings for all types of motor carrier vehicles, (3) analysis of the bridge formula contained in 23 U.S.C. 127 in view of current vehicle configurations, pavement and bridge stresses in accord with 1986 design and construction practices, and existing bridges on and off the Interstate System, (4) establishment of nationwide policy regarding the provisions of ‘reasonable access’ to the National Network for combination vehicles established pursuant to Pub. L. 97-424, and (5) recommendation of appropriate treatment for specialized hauling vehicles which do not comply with the existing Federal bridge formula and submit a final report to Secretary and Congress, not later than 30 months after appropriate arrangements were entered into.

STATE-IMPOSED VEHICLE WIDTH LIMITATIONS

Pub. L. 97-369, title III, §321, Dec. 18, 1982, 96 Stat. 1784, related to State-imposed vehicle width limitations, prior to repeal by Pub. L. 98-17, §2, Apr. 5, 1983, 97 Stat. 60. See section 31113 of Title 49, Transportation.

STEERING AXLE STUDY; REPORT TO CONGRESS

Section 210 of Pub. L. 94-280 directed Secretary of Transportation to conduct an investigation into relationship between gross load on front steering axles of truck tractors and safety of operation of vehicle combinations of which such truck tractors are a part, such investigation to be conducted in cooperation with representatives of (A) manufacturers of truck tractors and related equipment, (B) labor, and (C) users of such equipment, and the results of such study to be reported to Congress not later than July 1, 1977.

§ 128. Public hearings

(a) Any State transportation department which submits plans for a Federal-aid highway project involving the by passing of or, going through any city, town, or village, either incorporated or unincorporated, shall certify to the Secretary that it has had public hearings, or has afforded the opportunity for such hearings, and has considered the economic and social effects of such a location, its impact on the environment, and its consistency with the goals and objectives of such urban planning as has been promulgated by the community. Any State transportation department which submits plans for an

Interstate System project shall certify to the Secretary that it has had public hearings at a convenient location, or has afforded the opportunity for such hearings for the purpose of enabling persons in rural areas through or contiguous to whose property the highway will pass to express any objections they may have to the proposed locations of such highway. Such certification shall be accompanied by a report which indicates the consideration given to the economic, social, environmental and other effects of the plan or highway location or design and various alternatives which were raised during the hearing or which were otherwise considered.

(b) When hearings have been held under subsection (a), the State transportation department shall submit a copy of the transcript of said hearings to the Secretary, together with the certification and report.

(Pub. L. 85-767, Aug. 27, 1958, 72 Stat. 902; Pub. L. 90-495, §24, Aug. 23, 1968, 82 Stat. 828; Pub. L. 91-605, title I, §135, Dec. 31, 1970, 84 Stat. 1734; Pub. L. 105-178, title I, §1212(a)(2)(A)(i), June 9, 1998, 112 Stat. 193.)

AMENDMENTS

1998—Pub. L. 105-178 substituted "State transportation department" for "State highway department" wherever appearing.

1970—Subsec. (a). Pub. L. 91-605, §135(a), provided for submission of a report by the State highway department involved indicating consideration given to economic, social, environmental, and other effects of the plan or highway location or design plus the various alternatives which were considered.

Subsec. (b). Pub. L. 91-605, §135(b), inserted reference to report to be submitted by the State highway department together with the certification of public hearings.

1968—Subsec. (a). Pub. L. 90-495 inserted social effect of projects, the impact on environment, and their consistency with the goals and objectives of such urban planning as has been promulgated by the community to the list of factors to be considered by State highway departments in looking over projects involving the bypassing or passing through of municipalities.

EFFECTIVE DATE OF 1968 AMENDMENT

Amendment by Pub. L. 90-495 effective Aug. 23, 1968, see section 37 of Pub. L. 90-495, set out as a note under section 101 of this title.

§ 129. Toll roads, bridges, tunnels, and ferries

(a) BASIC PROGRAM.—

(1) AUTHORIZATION FOR FEDERAL PARTICIPATION.—Notwithstanding section 301 of this title and subject to the provisions of this section, the Secretary shall permit Federal participation in—

(A) initial construction of a toll highway, bridge, or tunnel (other than a highway, bridge, or tunnel on the Interstate System) or approach thereto;

(B) reconstructing, resurfacing, restoring, and rehabilitating a toll highway, bridge, or tunnel (including a toll highway, bridge, or tunnel subject to an agreement entered into under this section or section 119(e) as in effect on the day before the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991) or approach thereto;

(C) reconstruction or replacement of a toll-free bridge or tunnel and conversion of the bridge or tunnel to a toll facility;

(D) reconstruction of a toll-free Federal-aid highway (other than a highway on the Interstate System) and conversion of the highway to a toll facility; and

(E) preliminary studies to determine the feasibility of a toll facility for which Federal participation is authorized under subparagraph (A), (B), (C), or (D);

on the same basis and in the same manner as in the construction of free highways under this chapter.

(2) OWNERSHIP.—Each highway, bridge, tunnel, or approach thereto constructed under this subsection must—

(A) be publicly owned, or

(B) be privately owned if the public authority having jurisdiction over the highway, bridge, tunnel, or approach has entered into a contract with a private person or persons to design, finance, construct, and operate the facility and the public authority will be responsible for complying with all applicable requirements of this title with respect to the facility.

(3) LIMITATIONS ON USE OF REVENUES.—Before the Secretary may permit Federal participation under this subsection in construction of a highway, bridge, or tunnel located in a State, the public authority (including the State transportation department) having jurisdiction over the highway, bridge, or tunnel must enter into an agreement with the Secretary which provides that all toll revenues received from operation of the toll facility will be used first for debt service, for reasonable return on investment of any private person financing the project, and for the costs necessary for the proper operation and maintenance of the toll facility, including reconstruction, resurfacing, restoration, and rehabilitation. If the State certifies annually that the tolled facility is being adequately maintained, the State may use any toll revenues in excess of amounts required under the preceding sentence for any purpose for which Federal funds may be obligated by a State under this title.

(4) SPECIAL RULE FOR FUNDING.—In the case of a toll highway, bridge, or tunnel under the jurisdiction of a public authority of a State (other than the State transportation department), upon request of the State transportation department and subject to such terms and conditions as such department and public authority may agree, the Secretary shall reimburse such public authority for the Federal share of the costs of construction of the project carried out on the toll facility under this subsection in the same manner and to the same extent as such department would be reimbursed if such project was being carried out by such department. The reimbursement of funds under this paragraph shall be from sums apportioned to the State under this chapter and available for obligations on projects on the Federal-aid system in such State on which the project is being carried out.

(5) LIMITATION ON FEDERAL SHARE.—The Federal share payable for a project described in paragraph (1) shall be a percentage determined by the State but not to exceed 80 percent.
